- SANRAL does not pay for the learners’ parents travel arrangements and accommodation for the dinner/luncheon.

- Day to day transport
- iPad
- Tablet
- Laptop
- Cellphones

---

**THE SELECTION PROCESS**

**JULY:** Application opens for the new year

**SEPTEMBER:** Closing date for applications – 30 September

**OCTOBER:** Initial selection of students

**DECEMBER – JANUARY:** Final selection after receipt of final exam results

**THE SELECTION CRITERIA**

The scholarship shall be awarded on the basis of the academic ability and financial need of the applicant. Preference will be given to those from rural schools. SANRAL reserves the right to withdraw any scholarship that may have been awarded on the basis of misrepresentation by the applicant and/or that the applicant is the beneficiary of other financial support schemes.

---

**KHANYISILE NKOSI,** Softspoken scholarship recipient Khanyisile (Grade 12), lives in Gauteng. She got her scholarship application form from her uncle, a doctor. The scholarship helps her pay for extra subjects offered in her high school’s curriculum. This exposes Khanyi to a wider variety of subjects and broadens her career prospects.

SANRAL’s scholarship programme is not exclusively for pupils who are dead-set on a career in the infrastructure sector. It is the agency’s way of giving back to the community, not just creating future engineers.

Khanyi says she’s still deciding whether to study medicine or accounting when she gets to university. She’s not particularly keen on engineering. “But I do admire the value the engineering industry adds to our daily lives,” she says. “In my own way, I want to contribute and make a change in people’s lives too.”

---

**ADRIAN LEIBBRANDT,** Uitenhage-born Adrian Leibrandt wants to be an electrical engineer. He completed Matric as part of the Class of 2016 at Daniel Renau High School. This SANRAL scholarship recipient says the agency’s programme has taken a huge financial burden off his parents.

“I was introduced to the scholarship by my maths teacher. I applied immediately and was awarded the bursary. My parents have been struggling financially for the past few years,” says Adrian. In the next 10 years, Adrian wants to be a qualified engineer.

“Different things motivate different people. My motivation is Nelson Mandela. He sacrificed his life for the people of South Africa. He established the Nelson Mandela Children’s Fund and contributed a part of his salary to the organisation. He put the needs of this country before his own. It is my passion to make people’s lives better.”

When he’s not studying, Adrian plays cricket. He’s good at it and has represented the Eastern Cape for the past four years.
